#1 WORLD SOLUTION FOR
IPAD WINE LIST

RESTAURANTS - WINERIES - DISTRIBUTORS - ONLINE SHOPS - WINELOVERS

Why Wine-is

We are passionate about connecting the wine world. We strive for connecting restaurants, wineries, wine shops, distributors, sommeliers, wine makers and wine lovers. We are present in more than 30 countries with a huge wine database with ready to use high quality images.

Today a lot of information gets lost along the way. A lot of great information about wines translates in a single, incomplete black and white line in a paper wine list. Wine-is allow us to fully expose wonderful content in your wine lists. You will love it, your guests will love it, and your business will thank you.

What differentiates us is the approach. We are not a software company but a complete operation to support your own business operation.

Wine-is Benefits

Wine List Management Effectiveness

- Export your wine list to iPad
- Access high quality content/images
- Add/eliminate wines anytime
- Change rapidly the wine prices

Decrease Costs

- Less time updating wine list
- No need to print
